Profile

Software Engineer in **Software Engineering and Decision Information Systems**, specialized in **Full Stack Development**. Experienced in the **design and development of web solutions** tailored to business needs, within **Agile** environments.

Education

Engineering Degree in Software Engineering and Decision Information Systems, IIT, Sfax, Tunisia 2026
Engineering School Entrance Diploma, Preparatory Cycle at FSS, Sfax, Tunisia 2023
Baccalaureate in Experimental Sciences, Lycée Mongi Slim, Sfax, Tunisia 2021

Professional Experience

Final-Year Internship – TestScheduler Platform Development (KPIT Technologies) February–July 2026

- Developed a web platform for planning and managing automotive validation activities using **Angular**, **ASP.NET Core**, and **MongoDB**.
- Designed and developed an interactive calendar with **Drag & Drop**, advanced filtering, PDF export, and real-time tracking.
- Designed and developed a shared offline notification service using **ASP.NET Core**, **SQL Server**, and **REST APIs**.
- Deployed the application using **Docker** and automated the CI/CD pipeline with **GitLab** and **Jenkins**.

Dental Appointment Management Web Application (RUNIT) July–August 2025

- Developed a web application using **React 18**, **Tailwind CSS**, and a **Node.js/Express** backend connected to **MySQL**.
- Integrated **automated email notifications** for users.

Medical Imaging Diagnosis Assistance Platform (End-of-Year Project) February–June 2025

- Fully developed a responsive platform using **Django**, **SQLite**, and **Bootstrap/HTML/CSS**.
- Integrated pre-trained deep learning models (**ResNet101**, **DenseNet101**, **VGG19**) for real-time AI predictions.

Spa Management Web Application – Marhaba Palace Sousse (EXPERT DEV SOLUTION) June–July 2024

- Designed a system using **React**, **Laravel**, **MySQL**, and **JWT**.

Academic Projects

Training Center Management Application November 2025 – January 2026

- Web platform for **managing training programs**, **students**, **trainers**, and **registrations**.
- Full Stack development using **React**, **Spring Boot**, **Spring Security**, **MySQL**, and **Docker**, with **multi-role authentication**.

ShopX – E-commerce Application April – May 2025

- Developed an **e-commerce platform** for managing products, shopping carts, and orders.
- Full Stack architecture using **ASP.NET Core**, **Angular**, and **REST API**.

ServiTounsi – Home Services Platform February – March 2025

- Developed a platform connecting **customers** and **home service providers**.
- Managed services, requests, and user profiles using **ASP.NET Core** and **React.js**.

Restaurant Website January 2025

- Developed a **web platform for a restaurant** showcasing its menu and services.
- Full Stack development using **ASP.NET Core**, **React.js**, and **REST API**.

Skills

Languages: C#, Java, Python, JavaScript, TypeScript, PHP, C, SQL
Frontend: Angular, React.js, HTML5, CSS3, Tailwind CSS, Material UI
Backend: ASP.NET Core, Spring Boot, Node.js/Express, Laravel
Databases: SQL Server, MySQL, MongoDB
DevOps & Tools: Docker, Git, GitHub, GitLab, CI/CD Jenkins
Methodologies: Agile, Scrum, Scrum of Scrums
Languages: Arabic (Native), French (Advanced), English (Advanced)

Certifications

- Scrum Fundamentals, 2025
- Introduction to Networks – Cisco, 2023
- IT Specialist – Python (Certiport), 2023

Extracurricular Activities

IEEE IIT Student Branch, Active Member 2023 – 2026

- Participation in the IEEE TSYP (Tunisian Students and Young Professionals Congress).
- Participation in IEEE Xtreme, international programming competition.
