Profile

Recent Software Engineering graduate specialized in **Software Engineering and Decision Information Systems**. Skilled in **C#, ASP.NET Core, Angular, SQL, REST APIs**, and **Docker**, with experience in designing business solutions, process automation, and Agile methodologies.

Education

Engineering Degree in Software Engineering and Decision Information Systems , International Institute of Technology (IIT), Sfax, Tunisia	2026
Preparatory Engineering Studies Diploma , Faculty of Sciences of Sfax (FSS), Tunisia	2023
Experimental Sciences Baccalaureate , Mongi Slim High School, Sfax, Tunisia	2021

Professional Experience

Final-Year Internship – Test Scheduler Platform Development (KPIT Technologies)	February–July 2026
- Developed a web platform for planning and tracking automotive validation activities using Angular, ASP.NET Core (.NET 8), and MongoDB. - Designed and developed an interactive scheduling calendar from scratch, featuring Drag & Drop, advanced filtering, PDF export, and real-time tracking. - Designed and developed a shared Web Push notification service using ASP.NET Core (.NET 8), SQL Server, and REST APIs for both web and desktop applications. - Deployed the application with Docker and automated the CI/CD pipeline using GitLab and Jenkins.	
Dental Appointment Management Web Application (RUNIT)	July–August 2025
- Developed a web application using React 18, Tailwind CSS, and a Node.js/Express backend connected to MySQL. - Integrated automatic email notifications for users.	
Medical Imaging Diagnosis Assistance Platform (Academic Project)	February–June 2025
- Developed a responsive platform using Django, SQLite, and Bootstrap/HTML/CSS. - Integrated pre-trained deep learning models (ResNet101, DenseNet101, VGG19) for real-time AI predictions.	
Spa Management Web Application – Marhaba Palace Sousse (EXPERT DEV SOLUTION)	June–July 2024
Developed a spa management web application using React, Laravel, MySQL, and JWT.	

Academic Projects

Training Center Management Application	November 2025 – January
- Full-stack application built with React / Spring Boot, featuring Spring Security, REST APIs, MySQL, and Docker. MVC (SSR/CSR) architecture with multi-role authentication.	
ShopX	April–May 2025
Developed an e-commerce application using ASP.NET Core (backend) and Angular (frontend).	
ServiTounsi	February–March 2025
Home services platform developed with ASP.NET Core (backend) and React.js (frontend).	
Restaurant Website	January 2025
Developed a restaurant website using ASP.NET Core (backend) and React.js (frontend).	

Skills

Programming Languages & Frameworks: PHP, Laravel, TypeScript, JavaScript, HTML, CSS, C, Python, Java, React.js, Django, Angular, Node.js/Express, Tailwind CSS, Material UI, Spring Boot, ASP.NET Core, SQL Server, MySQL, MongoDB

Version Control & DevOps Tools: Git, GitHub, GitLab, Jenkins, Docker.

Languages: Arabic, English, French

Certifications

- Scrum Fundamentals, 2025
- Introduction to Networks – Cisco, 2023
- IT Specialist – Python (Certiport), 2023

Volunteer Activities

IEEE IIT Student Branch , Active Member	2023 – 2026
- Participated in technical events and competitions. - Participated in IEEE TSYP (Tunisian Students and Young Professionals Congress). - Participated in IEEE Xtreme, an international programming competition.
